

# BETTER HOMES USA.

HOMES IN YOUR TOWN

Dear Home Seller:

Before you choose a Realtor to sell your home, ask yourself this question.....  
Which Realtor can sell your home for MORE....NOT, who sells more homes.

The “Better Homes USA, Marketing System” has been designed to produce the best price for your home, by providing your home with the most exposure. Like everything else in life, the value of real estate is determined by supply and demand.....the greater the buyer demand, the higher the price, AND you get what you pay for.

FACT: Nearly 80% of homebuyers start their search on line! Even if you the seller are not on-line, your buyers are.

What company will provide you with the greatest on-line exposure?  
What company provides Virtual Tours and a Photo Gallery on all homes?  
What company has a World Wide Real Estate Show?  
What company advertises on over 1,000 websites?  
What company can feature your home on your town’s website?  
What company e-mails your home to a data base of thousands of homebuyers?  
What company provides aerial photo listings on line?  
What company has “Text Messaging” yard signs with call capture system?  
What company has the professionally skilled agents?  
What company can feature your home on HGTV?  
What company provides transactions and offers a Home Warranty on every home?  
What company has the BEST name in Real Estate?

Consider this .... Discount brokerage results in discount exposure, and believe it or not, some real estate companies pay 100% of the commission to agents and spend 0% on the home. Therefore, marketing of your home will be directly related to how much money the individual agent can afford to spend.

We continue to utilize newspapers, flyers, open house and all other traditional marketing, but as we have demonstrated ...today, traditional marketing is no longer enough.

*Nobody does it better!!!* Better Homes USA.
